Company Profile

Plastyly is sprate over 40,000 square feet of area and well equipped with state of the art machinery and insrument. We are one of the largest manufacturer and wxporter of PP sheets, HDPE sheets, Bubble sheets and Corrugated sheets.

We Believe in Staying a ahead of todays technology race by implementing latest machineries as well as equipments to fulfill requirements of our customers with best quality at best possible price..

Plastply has won trust to thier customers within a short period of time by havin customer first approach and emerged as one of the best leading manufacturer in the field of polymer products.

why Choose Us

Customer Focus

We develop relationships that make a positive difference in our customers' lives. A strong will to win in the marketplace and in every aspect of our business.

Excellent

Turning your concept into actual products takes a team approach. Plastply is your team of product development experts, project management gurus, and innovation enablers ready to help you create a winning product.

Tailored Service

We don't have a 'one size fits all' approach. We believe that by staying close to your business as it evolves We will work hard to understand your needs in order to develop a productive, long-term partnership

Our Mission

Sustainability is at our Core. Using life-cycle to compare reusably.

Fully plan and design the solution, Implement Seamless integration.

Helping Customers Drive Sustainability with Our Proven Process.

Our Products

PP Corrugated Sheets

PP Corrugated Sheets are available in sizes, styles, and colors, and it also makes products in custom sizes with a very nominal upcharge.

Details

- Waterproof and chemical effects resistance
- No dust puncture
- Fast cheap
- Reusable and recyclable
- Can be customized

Bubble Sheets

bubble Guard Protection Sheets is manufactured from strong honeycomb polypropylene structure to provide long-lasting protection for various surfaces like windows, doors, stairs, walls, etc...

Details

- Stiff, rigid, and lightweight
- uniform strength in all direction
- can be bent, folded, welded, thermoformed, and fully recyclable
- lamination possible with a soft surface
- can be customized

HDPE sheets

HDPE sheets It is stronger, more useful, more hygienic than the other materials in the sector. it shows extra strength against moisture and chemical actions.

Details

- Abrasion resistance, corrosion resistance
- moisture resistance, heat resistance
- high surface strength, high heat strength
- high toughness and food grade
- extremely tough and easy to fabricate

Our Products

PP Solid Sheets

Polypropylene shows high mechanical strength and tensile strength, but a low notched impact strength. PP resists cracking and it is easy to weld. At minus temperature, it can become brittle. The chemical and electrical properties are very good.

Details

Abrasion resistance, corrosion resistance
moisture resistance, heat resistance
high surface strength, high heat strength
high toughness and food grade
extremely tough and easy to fabricate

Shipping Pallet guard

Plastply Pallet guard sleeve system, the most secure and versatile packaging solutions. The intelligent space-saving unit is comprised of 3 parts Lid, Sleeve, and pallet designed to store and transport ensure that this will be easily integrated into your existing supply chain.

Details

Quick & Easy to use, Easy to Apply no skill requirement
Keeps workspace clean and tidy, Time & Cost saving
Reusable for a long time, High impact resistance
Waterproof, Easy to cut

Pack guard

The Pack guard range of boards are strong and rigid that can be easily fabricated into boxes. Its unique circular honeycomb structure makes it lightweight, durable, impact resistant and liquid proof making it ideal storage solutions for packaging.

Details

Stiff & Rigid, Fully Recyclable
High load-carrying capacity, Can be customized
Uniform Strength, Lightweight
Value-added lamination possible

Applications

Agricultural Industry

Beverage Industries

Building Industries

Floor Guard Sheets

Shipping Guard

Fabrication

PP Corrugated Sheets

chemical

Gears

Industrial Creats

Medical

Steel/metal industries
